PROFESSIONAL EXPERIENCE

Actuarial Analyst - Consumer Markets Pricing

Manulife Financial

Sept. 2017 – Exp. Dec. 2017 | Toronto

- Standardized pricing models across health, dental, and travel products to eliminate need of per-product updates for repricing purposes
- Revitalized travel pricing methodology using fundamental machine learning techniques to predict claim patterns and highlight risk factors

Investment Consulting Analyst

Mercer (Canada) Limited

May 2017 – Aug. 2017 | Toronto

- Monitored quarterly performance of funds with a keen focus on past results in order to optimize asset allocation of institutional clients
- Automated significant portion of daily data entry process with VBA Macros to half run time of asset reconciliation

Investment Consulting Analyst

Mercer (Canada) Limited

Jan. 2016 – May. 2016 | Toronto

- Performed funding valuation to determine updated liabilities resulting in savings of $100,000 annually over a 3 year period
- Linearized single benefit and PSPA calculations with the creation of an Excel-based calculator to reduce manual calculations by 90%

Lifeguard and Swim Instructor

City of Toronto, YMCA Canada, Toronto Pan. Am. Sports Centre

Dec. 2012 – Jan. 2018 | Toronto

- Develop simple and effective teaching methods for children and adults in order to improve swimming abilities
- Create a welcoming environment while displaying extensive knowledge of services available to provide excellent customer experience

STRENGTHS

Systematic Problem Solving | Detail Oriented | Presentation Skills | Collaborative Research

R | Statistical Analysis | Spatio-temporal Models | Bayesian Inference | Supervised Learning

ACADEMIC EXPERIENCE

Teaching Assistant

Ryerson Univeristy & University of Toronto

Jan 2018 – Present | Toronto

- Lead tutorials and office hours to strengthen understanding of analytical concepts in undergraduate courses
- **Courses**: Statistical Reasoning, Data Analysis I, Statistical Methods for Machine Learning I, Probability & Statistics I

Summer Research Student

St. Michael's Hospital

May 2019 – Aug. 2019 | Toronto

- Spatio-temporal modeling of Personal Attrition Factors for prediction of lung cancer deaths in India

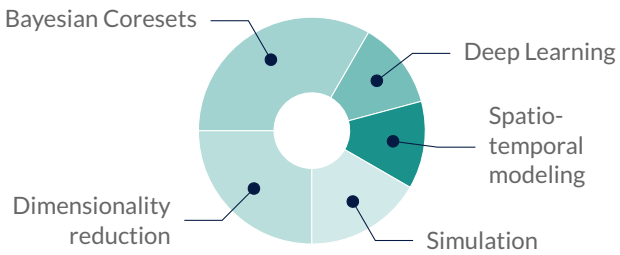
Research Assistant

University of Toronto

Jan. 2018 – May 2019 | Toronto

- **Department of Statistics:** Evaluate effectiveness of the university's statistics programs to revamp curriculum
- **Risk Lab:** Create a quantitative methodology for indexing cryptocurrencies with use of time series and multivariate data analysis

AREAS OF INTEREST



EDUCATION

M.Sc . Applied Mathematics (Thesis Option)

Ryerson University

Sept 2019 – June 2021 | Toronto

- **Key Courses:** Analysis & Probability, Stochastic Processes, Bayesian Modeling, Discrete Mathematics

B.Sc. Statistics & Mathematics

University of Toronto

Sept 2014 – June 2019 | Toronto

- **Key Courses:** Machine Learning, Bayesian Data Analysis, Spatial Statistics, Multivariate Data Analysis, Statistical Computing, Time Series Analysis
